

Safeguarding policy

1. Introduction and Ethos

- *Every child deserves the best possible start in life and the support that enables them to fulfil their potential. Children develop quickly in the early years and a child's experiences between birth and age five have a major impact on their future life chances. A secure, safe and happy childhood is important in its own right.'* (EYFS 2023)
- Staff working with children at Cocoon Family are advised to maintain an attitude of 'it could happen here' where safeguarding is concerned.
- The proprietors of Cocoon Family believe that all those directly involved with our setting have an essential role to play in making it safe and secure. Our setting aims to create the safest environment within which every child has the opportunity to achieve their full potential and we take seriously our responsibility to promote the welfare and safeguard all the children and young people entrusted to our care.
- As part of the safeguarding ethos of the setting we are committed to:
 - Maintaining children's welfare as our paramount concern
 - Providing an environment and culture in which children feel safe, secure, valued and respected, confident to talk openly and sure of being listened to
 - Developing appropriate and positive relationships between children and the adults that care for them
 - Providing suitable support and guidance so that children have a range of appropriate adults who they feel confident to approach if they are in difficulties
 - Using learning opportunities to increase self-awareness, self-esteem, assertiveness and decision making. This is so that young children develop a range of contacts and strategies to ensure their own protection and understand the importance of protecting others
 - Working with parents/carers to build an understanding of the setting's responsibility to ensure the welfare of all children including the need for referral to other agencies in some situations
 - Ensuring all staff have regular and appropriate training (including induction) to enable them to recognise the signs and symptoms of abuse and ensure they are aware of the setting's procedures and reporting mechanisms
 - Monitoring children who have been identified as 'in need' including the need for protection, keeping confidential records which are stored securely and shared appropriately with other professionals.
 - Developing effective and supportive liaison with other agencies.
- Cocoon Family adheres to the KSCMP Safeguarding Children Procedures. The full KSCMP procedures document and additional guidance relating to specific safeguarding issues can be found on the KSCMP website: www.kscmp.org.uk
- Cocoon Family's Designated Safeguarding Lead (DSL) is Katia Orendain del Castillo (Nursery Manager) and Deputy DSL is Danitza Orendain del Castillo (Deputy Manager).

2. Policy Context

- This policy has been developed in accordance with the principles established by the Children Acts 1989 and 2004 and has due regard to the related guidance. This includes:
 - DfE Keeping Children Safe in Education 2020 (KCSIE)
 - Working Together to Safeguard Children 2018 (WTSC)
 - Ofsted: Education Inspection Framework' 2019
 - Framework for the Assessment of Children in Need and their Families 2000
 - Kent and Medway Safeguarding Children Procedures (Online)
 - Early Years and Foundation Stage Framework 2023 (EYFS)
- This policy has been implemented to ensure compliance with section 3, the safeguarding and welfare requirements of the EYFS.
- We acknowledge that some children may return to the setting having been exposed to a range of adversity and trauma including bereavement, anxiety and in some cases increased welfare and safeguarding risks. We will work with local services (such as health and the local authority) to ensure necessary services and support are in place to support children and their families.

3. Definition of Safeguarding

- Working Together to Safeguard Children (2018) states that safeguarding and promoting the welfare of children is defined as:
 - protecting children from maltreatment.
 - preventing impairment of children's mental and physical health or development.
 - ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and
 - taking action to enable all children to have the best outcomes.
- It also reminds us that safeguarding “**is everyone’s responsibility**” (WTSC). *Everyone who comes into contact with children and families has a role to play.* Everyone should consider wider environmental factors in a child’s life that may be a threat to their safety and/or welfare.
- The setting acknowledges that this policy will incorporate a range of specific safeguarding issues including (but not limited to):
 - Abuse and neglect
 - Bullying (including cyberbullying)
 - Children and the court system
 - Children Missing Education (CME)
 - Children with family members in prison
 - Child missing from home or care
 - Child Sexual Exploitation (CSE)
 - Child Criminal Exploitation (CCE)
 - Contextual Safeguarding (Risks outside the family home)
 - County Lines
 - Domestic Abuse
 - Homelessness
 - Drugs and alcohol misuse
 - Fabricated or induced illness
 - Faith abuse
 - Female Genital Mutilation (FGM)
 - Forced marriage

- Gangs and youth violence
 - Gender based abuse and violence against women and girls
 - Hate
 - Honour based abuse
 - Mental health
 - Missing children and adults
 - Online safety
 - Peer on Peer Abuse
 - Prevent duty (radicalisation and extremism)
 - Private fostering
 - Relationship abuse
 - Serious Violence
 - Sexual violence and sexual harassment between children
 - Human trafficking and modern slavery
 - Serious Violence
 - 'Upskirting'
 - Youth produced sexual imagery or "Sexting"
- Annex A of 'Keeping Children Safe in Education' (KCSIE) contains important additional information about specific forms of abuse and safeguarding issues. Staff at the setting who work directly with children will read this annex.
 - If staff have any concerns about a child's welfare, they should act on them immediately. They should follow this child protection policy and speak to the Designated Safeguarding Lead (or deputy).

4. Policy Compliance, Monitoring and Review

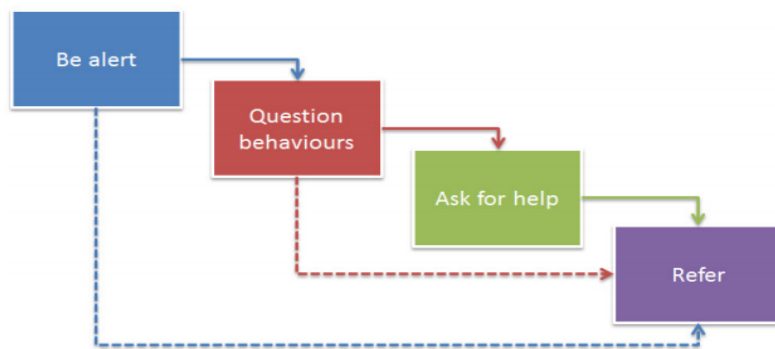

- Cocoon Family will review this policy at least annually. The policy will be revised following any national or local policy updates, any local child protection concerns and/or any changes to our procedures.
- All staff (including temporary staff and volunteers) will be provided with a copy of this policy and part one of KCSIE.
- Parents/carers can obtain a copy of the Child Protection Policy and other related policies on request. Additionally, our policies can be viewed via our website.
- The policy forms part of our development plan and will be reviewed annually by the Proprietors which has responsibility for oversight of safeguarding and child protection systems.

5. Responsibilities

- The EYFS 2023 requires providers *"to take all necessary steps to keep children safe and well"* and accordingly, everyone involved in the care of young children has a role to play in their protection. All members of staff in the setting are part of the wider safeguarding system for children and are in a unique position to observe any changes in a child's behaviour or appearance.
- All members of staff have a responsibility to identify children who may be in need of extra help or who are suffering, or are likely to suffer, significant harm. All members of staff have a duty of care to take appropriate action and work with other services as needed.

6. Recognising Indicators of Abuse and Neglect

- All staff in Cocoon Family are made aware of the definitions and indicators of abuse and neglect as identified by Working Together to Safeguard Children (2018), EYFS 2023 and Keeping Children Safe in Education 2020. This is outlined locally within the [Kent Support Levels Guidance](#).
- Cocoon Family recognises that when assessing whether a child may be suffering actual or potential harm there are four categories of abuse:
 - Physical abuse
 - Sexual abuse
 - Emotional abuse
 - Neglect
 - For further information see Appendix 1.
- All members of staff are expected to be aware of and follow this approach if they are concerned about a child:

'What to do if you are worried a child is being abused' 2015

- Members of staff are aware that concerns may arise in many different contexts and can vary greatly in terms of their nature and seriousness. The indicators of child abuse and neglect can vary from child to child. Children develop and mature at different rates, so what appears to be worrying behaviour for a younger child might be normal for an older child.
- It is important to recognise that indicators of abuse and neglect do not automatically mean a child is being abused however all concerns should be taken seriously and explored by the DSL on a case by case basis.
- Parental behaviour's may also indicate child abuse or neglect, so staff should also be alert to parent-child interactions or concerning parental behaviours; this could include parents who are under the influence of drugs or alcohol or if there is a sudden change in their mental health.
- Safeguarding incidents and/or behaviours can be associated with factors outside the setting and/or can occur between children offsite or involve children's family members.
- Children can be at risk of abuse or exploitation in situations outside their families. Extra-familial harms take a variety of different forms and children can be vulnerable to multiple harms including (but not limited to) sexual exploitation, criminal exploitation, and serious youth violence.
- By understanding the indicators of abuse and neglect, we can respond to problems as early as possible and provide the right support and services for the child and their family.

7. Child Protection Procedures

- Cocoon Family recognises that some children have additional or complex needs and may require access to intensive or specialist services to support them.
- Cocoon Family adheres to the Kent Safeguarding Children multi-agency partnership procedures (KSCMP). The full KSCMP procedures and additional guidance relating to specific safeguarding issues can be found on their website: www.kscmp.org.uk/
- All staff are aware of the process for making request for support referrals for statutory assessments under the Children Act 1989, along with the role they might be expected to play in such assessments.
- Cocoon Family recognises that in situations where there are immediate child protection concerns identified in line with Support Level Guidance, it is NOT to investigate as a single agency but to act in line with KSCMP guidance which may involve multi-agency decision making.
- **If a child is in immediate danger or is at risk of harm, a request for support should be made immediately to Integrated Children's Services (Front Door) and/or the police in line with KSCMP procedures.**
- The DSL may seek advice or guidance from their Area Education Safeguarding Advisor from the Education Safeguarding Service before deciding next steps. They may also seek advice or guidance from a social worker at the Front Door service who are the first point of contact for Integrated Children's Services (ICS).
- In the event of a request for support to the Front Door being necessary, parents/carers will be informed and consent to this will be sought by the DSL in line with guidance provided by KSCMP.
 - Parents/carers will be informed unless there is a valid reason not to do so, for example, if to do so would put a child at risk of harm or would undermine a criminal investigation.
- If the DSL is not immediately available to discuss an urgent concern, staff can seek advice from the Deputy DSL. They may also seek advice from the Education Safeguarding Service or via consultation with a social worker from the Front Door. If anyone other than the DSL makes a referral to external services, they will inform the DSL as soon as possible.
- The DSL will keep all early help cases under constant review and consideration will be given to a request for support to the Front Door if the situation does not appear to be improving or is getting worse.
- If, after a request for support or any other planned external intervention, a child's situation does not appear to be improving, the DSL will consider following [KSCMP escalation procedures](#) to ensure their concerns have been addressed and, most importantly, that the child's situation improves. DSLs may request support with this via the Education Safeguarding Service.

8. Record Keeping

- All safeguarding concerns, discussions and decisions, and reasons for those decisions, will be recorded in writing on the settings safeguarding system and pass them without delay to the DSL. A body map will be completed if injuries have been observed.
 - If members of staff are in any doubt about recording requirements, they should discuss their concerns with the DSL.
- Incident/Welfare concern forms are kept in the premises.
- Records will be completed as soon as possible after the incident/event, using the child's words and will be signed and dated by the member of staff. If there is an immediate concern the member of staff should consult with a DSL before completing the form as reporting urgent concerns takes priority.
- Safeguarding records are kept for individual children and are maintained separately from all other records relating to the child in the setting. Safeguarding records are kept in accordance with data protection legislation and are retained centrally and securely by the DSL. Safeguarding records are shared with staff on a 'need to know' basis only.
- All safeguarding records will be transferred in accordance with data protection legislation to the child's subsequent setting, under confidential and separate cover. These will be given to the new DSL and a receipt of delivery will be obtained.
- In addition to the child protection file, the DSL will also consider if it would be appropriate to share any information with the DSL at the new school or college in advance of a child leaving. For example, information that would allow the new school or college to continue to provide support

9. Multi-Agency Working

- Cocoon Family recognises and is committed to its responsibility to work within the KSCMP multi-agency safeguarding arrangements. The leadership team and DSL will work to establish strong and co-operative local relationships with professionals in other agencies in line with statutory guidance.
- Cocoon Family recognises the importance of multi-agency working and is committed to working alongside partner agencies to provide a coordinated response to promote children's welfare and protect them from harm. This includes contributing to KSCMP processes as required. Such as, participation in relevant safeguarding multi-agency plans and meetings, including Child Protection Conferences, Core Groups, Strategy Meetings, Child in Need meetings or other early help multi-agency meetings.

10. Complaints

- The setting has a complaints procedure available to parents/carers, children and members of staff who wish to report concerns. This can be found in our website or in the setting.
- All reported concerns will be taken seriously and considered within the relevant and appropriate process. Anything that constitutes an allegation against a member of staff or volunteer will be dealt with under the specific procedures for managing allegations against staff policy.

- Cocoon Family have a duty to inform Ofsted of any allegations of serious harm or abuse by any person living, working, or looking after children at the premises (whether the allegations relate to harm or abuse committed on the premises or elsewhere). We will also notify Ofsted of the action taken in respect of the allegations. Notifications will be made as soon as is reasonably practicable, but at the latest within 14 days of the allegations being made and are aware that to not do so would be an offence.

11. Safeguarding Children with Special Educational Needs and Disabilities

- Cocoon Family acknowledges that children with special educational needs (SEN) and disabilities can face additional safeguarding challenges as they may have an impaired capacity to resist or avoid abuse. They may have speech, language and communication needs which may make it difficult to tell others what is happening. The DSL will work closely with the SENCO to plan support as required. Cocoon Family SENCO is Katia Orendain del Castillo (Nursery Manager).
- Cocoon Family will ensure that children with SEN and disabilities, specifically those with communication difficulties will be supported to ensure that their voice is heard and acted upon.
- All members of staff will be encouraged to appropriately explore possible indicators of abuse such as behaviour/mood change or injuries and not to assume that they are related to the child's disability and be aware that children with SEN and disabilities may not always outwardly display indicators of abuse. To address these additional challenges, our setting will always consider extra pastoral support for children with SEN and disabilities.

12. Local Support

- All members of staff in Cocoon Family are made aware of local support available.

Policy written by: Katia Orendain and Danitza Orendain

Date policy was written:	21/08/2023
This policy is due for review on the following date:	21/08/2024

Appendix 1: Categories of Abuse

All staff should be aware that abuse, neglect, and safeguarding issues are rarely standalone events that can be covered by one definition or label. In most cases multiple issues will overlap with one another.

Abuse: a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. They may be abused by an adult or adults or another child or children. It should be noted that abuse can be carried out both on and offline and be perpetrated by men, women and children.

Sexual abuse: involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Signs that MAY INDICATE Sexual Abuse

- Sudden changes in behaviour and school performance
- Displays of affection which are sexual and age inappropriate
- Self-harm, self-mutilation or attempts at suicide
- Alluding to secrets which they cannot reveal
- Tendency to cling or need constant reassurance
- Regression to younger behaviour for example thumb sucking, playing with discarded toys, acting like a baby
- Distrust of familiar adults e.g. anxiety of being left with relatives, a child minder or lodger
- Unexplained gifts or money
- Depression and withdrawal
- Fear of undressing for PE
- Sexually transmitted disease
- Fire setting

Physical abuse: a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Signs that MAY INDICATE physical abuse

- Bruises and abrasions around the face
- Damage or injury around the mouth
- Bi-lateral injuries such as two bruised eyes
- Bruising to soft area of the face such as the cheeks
- Fingertip bruising to the front or back of torso
- Bite marks
- Burns or scalds (unusual patterns and spread of injuries)
- Deep contact burns such as cigarette burns
- Injuries suggesting beatings (strap marks, welts)
- Covering arms and legs even when hot
- Aggressive behaviour or severe temper outbursts.
- Injuries need to be accounted for. Inadequate, inconsistent or excessively plausible explanations or a delay in seeking treatment should signal concern.

Emotional abuse: the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Signs that MAY INDICATE emotional abuse

- Over reaction to mistakes
- Lack of self-confidence/esteem
- Sudden speech disorders
- Self-harming
- Eating Disorders
- Extremes of passivity and/or aggression
- Compulsive stealing
- Drug, alcohol, solvent abuse
- Fear of parents being contacted
- Unwillingness or inability to play
- Excessive need for approval, attention and affection

Neglect: the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate care-givers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Signs that MAY INDICATE neglect.

- Constant hunger
- Poor personal hygiene
- Constant tiredness
- Inadequate clothing
- Frequent lateness or non-attendance at School
- Untreated medical problems
- Poor relationship with peers
- Compulsive stealing and scavenging
- Rocking, hair twisting and thumb sucking
- Running away
- Loss of weight or being constantly underweight
- Low self esteem
